It is a property that we strongly believe that many buyers will be keen to acquire.

The property is set up as three bedrooms plus a study. The main bedroom suite being separated from the other rooms of the home and has a wonderful view to the front of the home and over the lovely garden area. The front living room on the upper living area is generous in size. It is a room that has instant appeal. Further to that there is a centrally located kitchen with an enormous amount of bench space and this hub of the home area looks out over
