The property itself is currently disposed as a residence offering three good size bedrooms, an excellent living room and a central dining area adjacent to the kitchen area. There is also a sunroom to the rear of the property opening out to the outdoor patio living area.

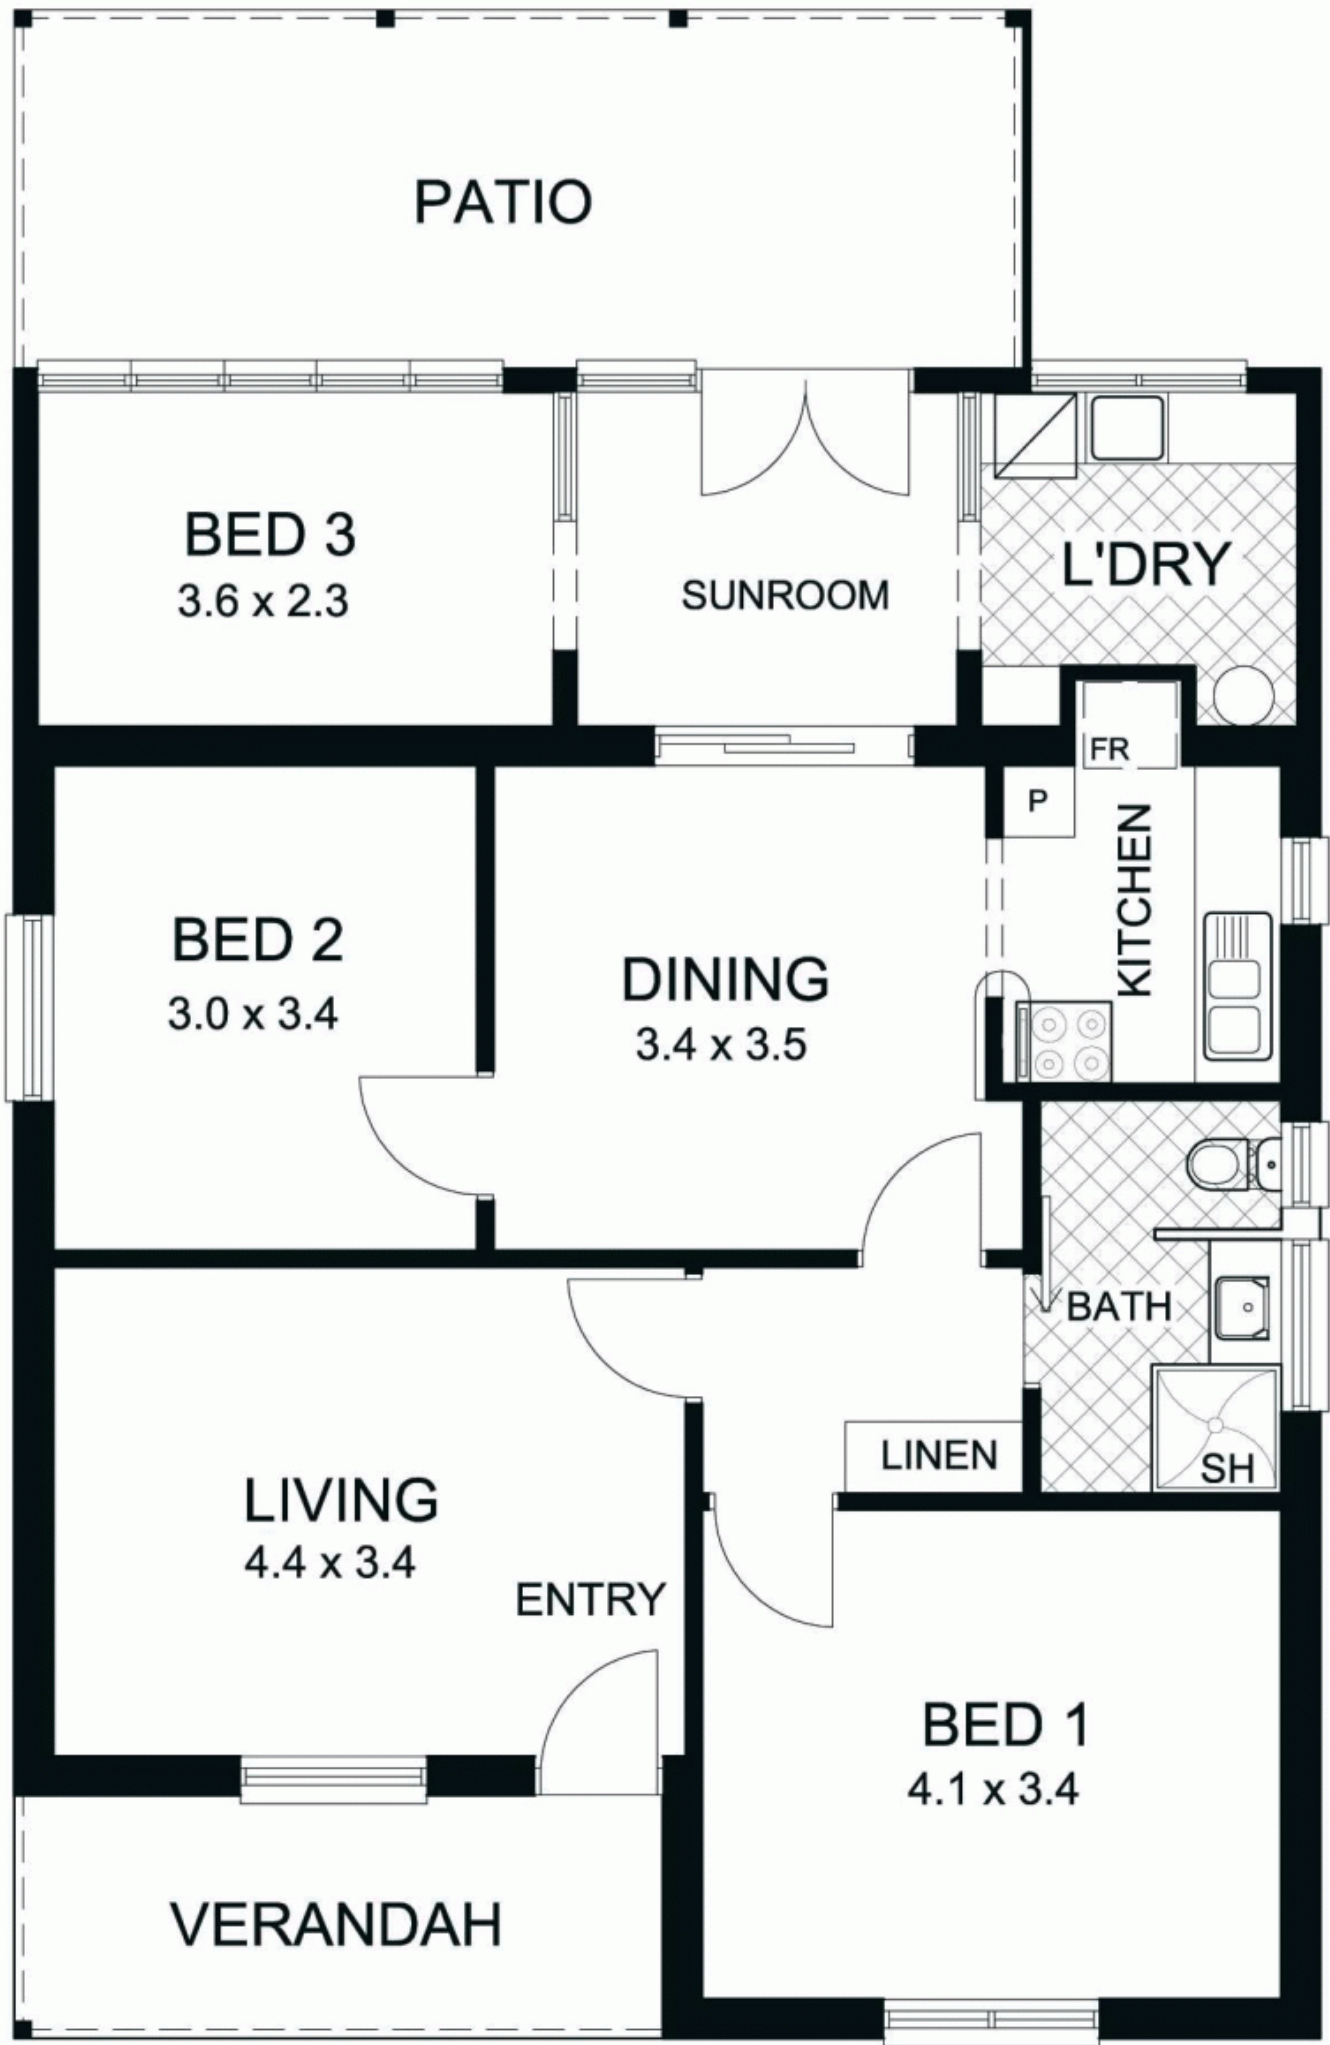

The home is on good size grounds and there is also a lockup garage.

All in all a very neat and tidy residence that would be ideal for families who are seeking to acquire a property in the lower price range in this particular area.

It is great buying and we certainly recommend you inspect
